National Poison Prevention Week

18 - 24 March 2007

Poison Facts and Prevention

Poison Facts

- What is a poison?

  Something that makes you sick or harms you if you eat, drink, touch or smell it.

- Is there only one type/form of poison?

  NO – poisons can be SOLID, LIQUID, AEROSOL, or even INVISIBLE.

Poison Facts - Solid

- Solid poisons - chunky and chewy
  (like pills, plants and berries)

Poison Facts - Liquids

- Liquid poisons – any color; creamy, blobby or like water.

  (like floor cleaners, antifreeze, mouthwash, paints)

Poison Facts – Aerosols (Sprays)

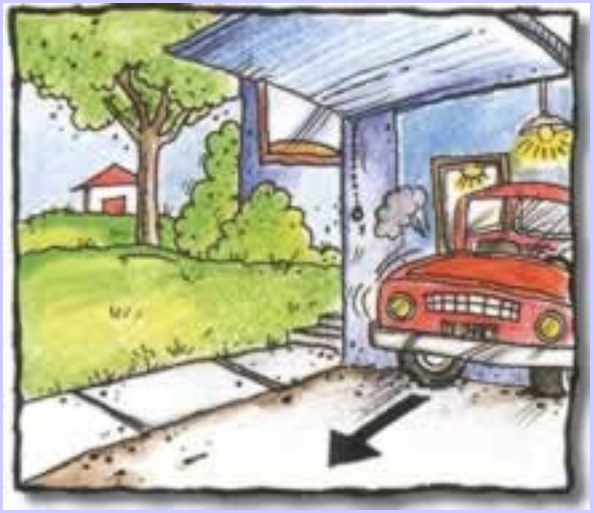
- Aerosol poison - a spray or a bottle. Aerosol mist enters eyes or lungs.

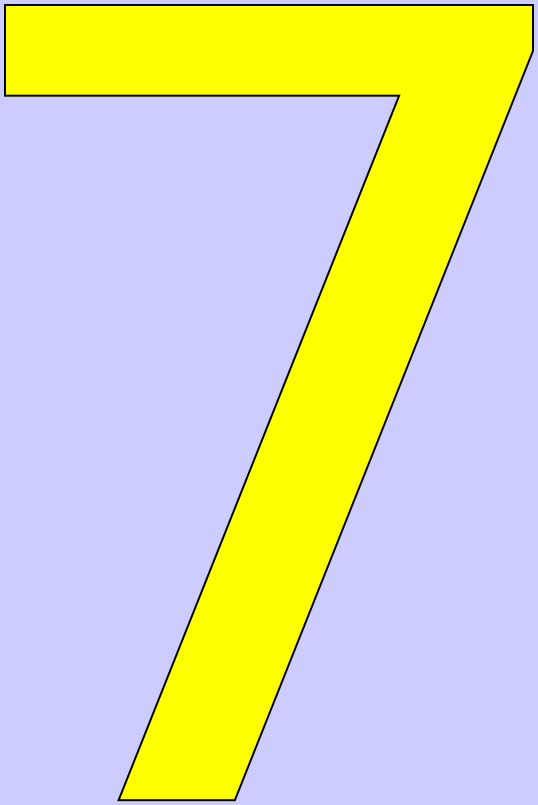
  (like furniture polish and bug spray)

Poison Facts - Invisible

- Invisible poison - found almost anywhere that is burning or running.

(like carbon monoxide or chemical decomposition)





Poison Prevention

- American Association of Poison Control Centers
  - Receive more than one million calls per year involving children five years old and younger.

- Potentially toxic household products involved:

Toxic Household Products

- Personal care products, including baby oil and mouthwash containing ethanol.

- Cleaning substances, including drain openers and oven cleaners.

Look Alike Products

Toxic Household Products

Look alike products

- **Over-the-counter pain relievers – including cough and cold medicines.**
- **Hydrocarbons, such as lamp oil and furniture polish.**
- **Adult-strength vitamins and supplements containing iron.**

Poisonings Occur When:

- Parent or caregiver steps away or is distracted for a moment.

- Grandparents and others who keep their prescription drugs in non-child-resistant pill boxes.

Who To Call

- If you suspect swallowing or handling a potentially dangerous product – **call the Poison Center Hotline**. Your call will be answered by experts at your local poison center 24 hours a day.

Sure Am Fortunate Experience

SAFE

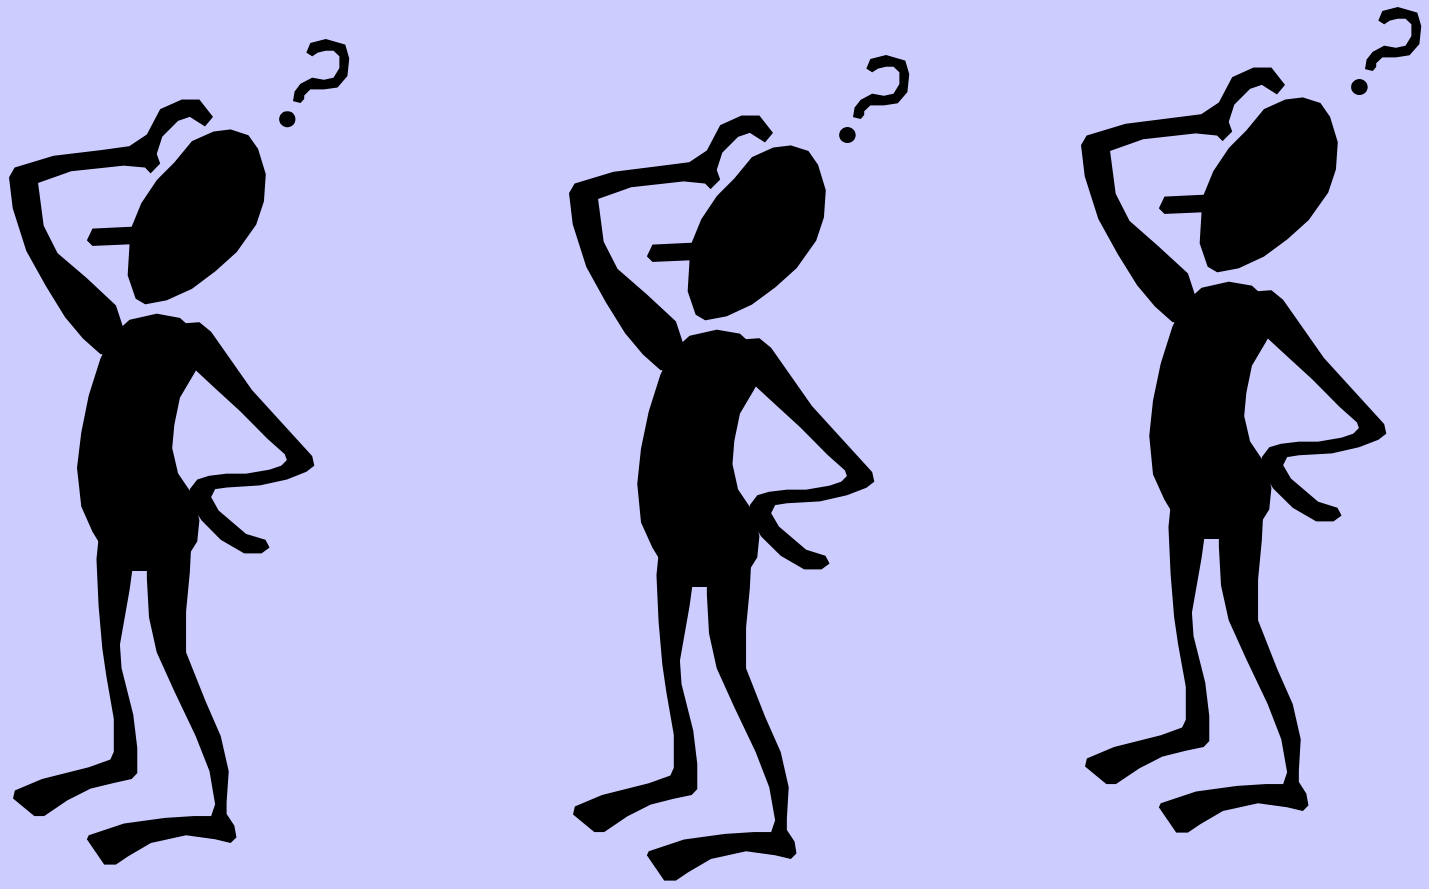
Here's the story…

And the WINNER is...

LESSONS LEARNED

- ALWAYS be aware of burning candles
- NEVER put combustible materials near burning candles; keep candle areas clear
- Extinguish all candles prior to sleeping
- Have a supply of flashlights/batteries and weather radio available for emergencies
- Have emergency supplies on hand (water, blankets, dry food, etc)
- Avoid carrying burning objects
- Have a fire extinguisher/water source available
- Consider putting the burning object in the fireplace

QUESTIONS?



Next Meeting

- **10 April 2007, Tuesday**
- **1000**
- **Room 25, Bldg 90**
